“ I spent so much of my time being with Brady and his mom before we entered high school. He was always such an amazing friend and super talented skater. He had such a consistent positive attitude that was easily rubbed off to the people around him, because of who he was.

There aren't many like you, Brady, and it's such a shame that you aren't still here with us, showing others what you've showed me in the past.

My deepest condolences go to his family and friends and really anyone that even got a glimpse of the person he was, because you could tell he was a humble human with the nicest intentions in every situation regardless of who and where.

You were one of a kind, brother. We love you, and we miss you already. I will never forget those hot summer days of you teaching me endless things about skating, and always seeing how many tre flips you could land in a row (And when you ripped your pants). I love you Brady! I'll never forget you.

“Brady was my friend and coworker during our time at Avanti’s of Pekin. He would frequent get together at my house and meet up for dinner from time to time. He always had a bright and outgoing demeanor as well as a knack for giving the exact compliment that would warm a person the most. He was quiet, observant, and meaningful when he spoke. It’s an absolute shame to be on this planet without him. My only wish is that he wasn’t afraid or in pain. I know he will always mean something to everyone he met. We live on through the memories of others, and I know his Avanti’s crew will always speak frequently of him.
