“ I’m still trying to understand why our aunt was taken so soon but will always go back to my memories of her beautiful smile and positive outlook with everything going on in her life that so many would not have been able to maintain. You truly made me see life in a different spectrum when being around you. I’m a better man because of you and will cherish the moments that I had with you. I love you and will always miss you. I know you will always be looking over all of us. I will always remember your strength when I’m feeling weak because you are one of the strongest woman I have known. Your nieces and nephews will always hold you deep in their heart. Love you so much Aunt Dani. ”
