*This is the way I remember you Harry. We used to hang out all the time, taking our families to the park, or fishing, or just kicking back watching movies. I seen this page and read the first comment on it saying how you used to call her granddaughter whittle woo too's. At first it struck me in a wrong way. But then I remembered how every time I called my daughter "my whittle woo too's, you used to crack up laughing. So I thought that it was pretty cool how that stuck in your head all them years. There is no more pain brother. I am going to miss you fiercely Harry. I love you brother! R.I.H.*
