“ Just food for thought...No matter what was going on in her life here on earth there's one thing anyone who knew her would tell you that her children was here number one priority in life her children to back seat to no one she did everything anyone could ever ask of a mother to make sure her children was going to be with herI remember when she meet her second husband she told him her and her children was a package deal if he wants her he has to accept us also....LOVE YOU MOM....and always will

In my brief interactions with Norma you could tell she loved and fought for the well being of her family. You could tell she left a lasting impact of committed love on her kids. She will be missed.
