“ Phyllis,

*It hurts my heart to learn that you are no longer with us. I'm so sorry that you had to go through so much. It comforts me to know that you are now at peace and no longer in pain. I believe you are now in a better place with others who love you too.*

*It saddens me that we weren't able to work out our differences (must have been the Mann in both of us!). I missed you and always kept you in my thoughts. We were once close and I will always cherish my memories of growing up with you and the times we shared as adults. I would give anything to be able to turn back time so I could hug you and tell you goodbye.*

*Growing up you were the quiet one and I was the wild one. I probably could have talked you into doing just about anything! As we got older I feel these roles reversed and you became the wild one! We did have some fun! You have always been and always will be my little sister! I will always miss you.*

*As a memorial, we planted Lily of the Valley plants, your birth flower, under your bedroom window at our childhood home. They should bloom every year around your birthday.*

*We want everyone to know that we will always be here for your boys and their families if they ever need anything.*

*I love you little sister! Fly high with all our other Angels!*

*Love,  
Barb*
